

MY SCHOOL LIFE

My school is in Votice. I live in Votice, too. The school is spacious. The school is near the centre of the town. There are about six hundred pupils in nine grades. It is a basic

There are many classrooms, halls, two gyms and big outdoor playground. It is in reconstruction now. The big gym is very airy and we play many games there. The very small gym is not pleasant. It is not airy.

We have quite big airy.

We eat our lunch in a school canteen. We can choose from soup, three dishes and cakes.

There are lot of pupils all the time. My class-room is on the main hall on the first floor. I like it very much. There is new furniture.

We have in sixth grade these subjects - maths, Czech, biology, history, English, PE, IT, art. My favourite subjects are maths and cooking. I like preparing lunch with my school friends.

I don't like Czech, it is so difficult.

We have many rules in our school. The school starts at eight o'clock a.m. It's not early for me. We don't have pets in school. We have to prepare books and exercise books and pencil case for all subjects. The rules are important for everybody.
